

Film A

Enna Thea

Waves of sunsets
Calm icy wavy mirrors
Golden beams of light shine through
Deep oceans like lightening
Seabed of sponges
Soft, rough sponges

Josiah and Rayhad

Water falls make me calm
Waves are choppy that gives me hope
And calm

Wavy waterfalls
Waterfalls that give me hope
Makes me hear a song of the
Waves that are wavy but choppy
And cold

Cold and choppy falling down
Like waterfalls make me calm
And makes me want to sing
a song about hope

Cold and choppy calm and

Wavy makes me want to sing
A song about hopes and waterfalls

See the waterfalls in the
distance my eyes and ears
Hears and sees my voice
In a hopefully and wavy
Song about my hope and
dreams . It makes us feel calm and peaceful in
this world.

Film B

Ayzah

Water means freedom to move as we choose,
Leaving trails of what we know behind so that
someone new could find and learn.
Diversity in London is my favourite part of the
city,

To see people from all over the world gathered in
one city
Seems like the ideal place to be.
A place where music and shared ideas unfold,
An endless stream of community and friends to
meet
With many different sights to see,
All connected by the most loved Thames sea,
Holding us all together, community.

Marcus

Golden Deep
Dark water
Depth is scary
Waves get darker
Black shark in black water
There is something golden in the
Water
It's a golden present - it's a house. Inside there
is a
Golden sponge

Sad - face looking up

Movement - fast, start/stop

Quickly - forwards and backwards in space

Rough fast movement, moving forwards and backwards

in space looking left and right. Rocking head left and right while smiling.

Quick - movement -spinning. Fast.

Sat very still in chair

Water makes me feel free

Nigeria, where I am from

Cold makes me feel like a polar bear

On a rowing boat to Graeae

The boat breaks, polar bear escapes

Where has he gone?

Back to freedom

Wants his life back.

Polar bear is feeling sad

Poor polar bear

Polar sings your my sunshine

Film D

Kia

The white and silver floaty material

Soft, glittery reminds me of candy floss
The water is glittery when you drink it
The water is warm on my feet when I'm
swimming

Rough
In Brighton I walked on the water - the pier it
was scary. I got a stick of rock
There were waves in the sea and the seagulls
take
your food.
I felt nervous looking at the sea, scared to
fall in

Godwin

Water it makes you think of life. It's the circle of
life.

it's science

Water is just you

Water is nature's pillow

Water protects you. It's like a hug. Water is
nature's pillow, it's life

Like a light sometimes, light is part of nature

There is challenge along the way, there is no
right or wrong

You can say anything you want

Is a silver lining

Water protects our feeling and mood

Nature below I can find
